I'm grateful for the support I've received from local and state elected officials. Working together we've brought help for flood victims and pulled in funds for future flood protection. I'm glad that measures I backed increased support for veterans, helped sustain our health system and provided support for local law enforcement and firefighters. The protection and safety of each of you is foremost in my mind. And I've always put people over politics.

But I've heard your concern about extremism. I served on the Committee to investigate the (January 6th) attack on the Capitol. I learned the threat to our democracy is real. And I've gained some insights on how to defend democracy. Without our democracy we won't succeed with any of the other challenges we face.

Because this is such a critical time for our democracy, I offer myself to you for re-election to Congress. If I'm honored by your vote I will listen to you and stand up for you. Together we'll secure America's future.
