As a candidate for Santa Cruz City Council District 1, I am uniquely qualified to serve our community and I would be honored to earn your vote. As a single mom raising a 6-year old son in rental housing, I know firsthand the difficulty of balancing family and work in a community where housing affordability is constantly out of reach. I understand the hard choices working parents make each day, and I will be a tireless advocate for affordable housing that aligns with our community character.

As Executive Director at Big Brothers Big Sisters of Santa Cruz County, I understand the importance of supporting youth. I will work closely with trusted community organizations to ensure essential city services are allocated responsibly to help empower the next generation. As a commissioner for the City's Commission for the Prevention of Violence Against Women, I understand the critical need for safe spaces in our community. Ensuring our public spaces are safe and welcoming for everyone will be a priority.

My personal and professional background is built upon my unwavering commitment to building a Santa Cruz that is equitable, affordable, and sustainable. Through collaboration, empathy, and dedication to public service, we will bring positive change to our beloved city.
