

How to vote with an electronic ballot

At the polling place, you can choose to vote on a touch screen or paper ballot.

With touch screen voting, all voters – including those with disabilities – can vote privately and independently.

1. Tell the poll worker you want to use the touch screen

- The poll worker will give you a ticket.
- Take it to the touch screen area.
- When it's your turn, a poll worker will activate the screen so you can vote.

2. Mark your ballot

- Touch the box next to your choice. A green check mark will appear.
- To change your vote, touch that choice again. The green check mark will disappear.
- To vote for a write-in candidate, touch the box that says WRITE-IN. A keyboard will pop up. Type the write-in candidate's name, then touch OK.
